

Performance

Wednesday 15 December (Rescheduled from 29/9 & 15/11)

6pm – 7.30pm

“Hero of Myself” from Listening to Voices Theatre

“Hero of Myself” by Listening to Voices Theatre is a heartfelt unique performance directed by one of Australia’s most experienced community development artists Catherine Simmonds OAM.

In this touching performance our actors share their own stories in the hope that they may cast a light on some of the challenges people face in life, in the system they might turn to for help, as well as what they have personally and collectively found helpful. Their honest personal performances highlight strength and resilience. Catherine’s direction weaves the stories of our performers into a performance not easily forgotten.

“The most profound, moving, authentic & non-simplistic artistic expression of the lived experience of mental health issues I have even been privileged to witness - Thank you!” Audience member

Following the performance there will be a meet & greet with supper provided in the foyer
